THE CLEANSING OF

SHAUKIWAN.

We hope that the Government will

see its way to a speedy carrying out

of the suggestions made by the sub-

committee of the Sanitary Board

appointed to consider the best means

for dealing with the present insanitary

condition of Shaukiwai. Colonel Ben-

son's chart showing the ravages

wrought by malaria among the little

garrison at Lyemai is in itself

a sufficient cause of action, for it reveals

a truly shocking state of things, but

the sub-committee's report emphasizes

the gravity of the situation and shows

along what lines the remedy lies. We

are fully aware of the fact that we have

no overflowing Treasury at our backs

even such a small area as Shaukiwai

will entail considerable expense, while a

certain number of people will undoubt-

edly be put to what they will fondly

imagine is considerable inconvenience

and others may have to seek homes else-

where. But the individual always has

to go by the board where the general

welfare of the mass is concerned. This

cannot be helped, it is Nature's rule

all through creation. The present condi-

tion of affairs at Shaukiwai should not be

allowed to continue, any longer than

necessary, for the sake of the public

health and the peace of the colony.

The Chinese people are entitled to

know the truth about the condition of

the garrison and the people of

Shaukiwai. The Chinese people are
